EDUCATION

Sheridan College - Oakville, Ontario
Software Development & Network Engineering
Expected Graduation May 2026
GPA: 3.6/4.0
LinkedIn: www.linkedin.com/in/alennaijugeorge

May 2023 - Present

ACADEMIC PROJECTS

Build Snake using only JavaScript, HTML & CSS: Create a classic Snake game using JavaScript for logic, HTML for structure, and CSS for styling, incorporating user input, collision detection, and a game loop for continuous gameplay.

Make Flappy Bird in HTML5 and JavaScript with Phaser: A JavaScript game framework, leveraging HTML5 canvas for rendering, incorporating user input for flapping mechanics, obstacle generation, and scoring logic.

Build a Flashlight App: Building Android app using Java, using device hardware such as the camera flash, implementing a simple user interface with a toggle button, providing functionality to turn the flashlight on and off

OTHER WORK EXPERIENCES

University of Toronto Mississauga (UTM)
Kitchen Supervisor

Mississauga, Ontario
July 2023 - Present

- Ensured food is prepared according to established recipes and quality standards for over 2000 students and overlooked 20+ staffs.
- Prepared a diverse and balanced menu of 100+ items and meet the nutritional needs of student.
- Managed to work within budget constraints while maintaining food quality and saved over 25% of the initial cost.
